

8. AFRICAN DERMATOPATHOLOGY CONFERENCE (ADPC)

Hybrid Conference at the

Regional Dermatology Training Centre (RDTC)
Kilimanjaro Christian Medical Centre (KCMC)
Moshi, Tanzania

AND online

January 9th, 2023

8. African Dermatopathology Conference (ADPC)

Moshi, Tanzania, January 9th, 2023

Welcome to the hybrid **8th African Dermatopathology Conference** at the Regional Dermatology Training Centre (RDTC), at the Kilimanjaro Christian Medical Centre (KCMC), in Moshi, Tanzania AND online.

In the first years, we have had several successful **ADPCs** in Moshi, in 2019 in Kigali, Rwanda, in 2020 again in Moshi, and 2022 online. In almost every in-person edition we welcomed up to 60 participants from >10 African countries and from all continents, 60% dermatologists and 40% pathologists. In the last online conference in October 2022 there were 321 registered participants!

The excellent collaboration with the RDTC allows us to host the next **ADPC** again in a beautiful location and perfect timing. In fact, the annual International Dermatology Conference, 28th CME at the RDTC will follow on the next three days (January 11-14 2023). This will be a conference on Skin Diseases, Leprosy, HIV/AIDS and other STIs and Public Health Dermatology, with Reunion of Past- and Postgraduates. For all those who may not be able to travel, the conference will be virtual online as well. (see link at the end of the document)

We are looking forward to an extremely stimulating **8th African Dermatopathology Conference**: there will be lectures on several skin diseases, with clinical-pathological correlations and interesting cases presentations. The conference will bring together as usual several international experts to share professional experiences, knowledge and skills in order to improve patient care.

Since 2016, the “African Dermatopathology Society” (ADPS) is having the yearly meeting at the end of the conference. All conference participants are welcome to join the society.

We hope that you will join us in the friendly atmosphere at the slopes of Mount Kilimanjaro, **OR** follow the conference from your home or your office with the virtual online connection. Karibuni!

Helmut Beltraminelli

Course Schedule (EAT – Tanzania Time)

Monday January 9th

8:00 – 8:15	Welcome Prof. Dr. D. Mavura / Dr. H. Beltraminelli
08:15 – 08:45	GD – introduction to bullous diseases
8:45 – 9:15	LK – clinical cases, mastocytosis

17.15 – 18:15	AFRICAN SOCIETY OF DERMATOPATHOLOGY MEETING

Course Organizers:

Luly Kini, Tanzania

Helmut Beltraminelli, Switzerland

Learning Objectives

The course is meant to bring together once a year the African Dermatologists and Pathologists interested in Dermatopathology. The lectures will especially focus on clinical-pathological correlation of skin diseases.

The conference should provide basic information that can be applied to dermatopathology practice in the African continent. At the end of the course participants should improve their skills in the diagnosis of skin disorders.

Since 2016 the “**African Society of Dermatopathology**” (**ASDP**) is having the yearly meeting during the conference. All conference participants are welcome to join the society.
